

**Step 1:**

Connect raspberry pi SD card with OS to a computer. Then open “config.txt” using wordpad, MS word, notepad++ or any text editor that can detect formatting (Do Not use notepad). Then add the following line to the end. Then save it.

```
max_usb_current=1
hdmi_group=2
hdmi_mode=1
hdmi_mode=87
hdmi_cvt 800 480 60 6 0 0 0
dtoverlay=ads7846,cs=0,penirq=25,penirq_pull=2,speed=50000,keep_vref_on=0,swapxy=1,pmax=255,xohms=150,xmin=200,xmax=3900,ymin=200,ymax=3900
```

**Step 2:**

Now put the card inside raspberry pi. Power it up. Connect keyboard and mouse. Then connect your pi to the internet. If connecting to wifi, make sure that wifi country is set to Bangladesh (from start menu>> preferences>> raspberry pi configuration>>Localisation). Open browser and go to the following link.
